Bur Dubai, UAE, Dubai • +971 545783529 • m.zeeshanishaq5@gmail.com [linkedin.com/in/devzeeshan](https://www.linkedin.com/in/devzeeshan)

Passionate Engineering Lead with 9+ years of building scalable, secure, and high impact applications, combining deep hands-on engineering with a strong drive for product excellence. Experienced across telehealth, fintech, food tech, marketplace, e commerce, and property management, delivering complex platforms from concept to deployment, optimizing performance, and shaping technical direction end to end. Worked closely with executives, product leads, and cross functional teams to streamline operations, refine engineering workflows, accelerate delivery cycles, and push organization wide improvements that boost productivity and decision making.

Tools & Technologies

- **Frontend:**
React js, Next.js, JavaScript
- **Backend & System Architecture:**
Node.js, Laravel, Kafka, RabbitMQ, Redis (Pub/Sub), WebSockets, GraphQL, gRPC, REST APIs, Event-Driven Architecture
- **Databases:**
PostgreSQL, MongoDB, MySQL, SQLite, Elasticsearch
- **DevOps & Cloud:**
AWS, Docker, Kubernetes, GitHub Actions, CI/CD
- **Third-Party Integrations:**
Google Maps, Mapbox, HERE Maps
- **Project & Productivity Tools:**
Jira, Cursor, Claude, ChatGPT

Experience

MAY 2024 – PRESENT

ENGINEERING MANAGER | ROYAL CLASS, UAE | FULL TIME

Engineering Manager with a proven record of leading **high-performance engineering teams** and delivering **scalable, distributed, cloud-native platforms**. Experienced in **microservices architecture, performance optimization, automation**, and translating business goals into clear technical roadmaps. Worked closely with **executives and senior leadership** to align technical strategy with organizational priorities. Led the development of an **enterprise operations management platform** that streamlined organization-wide workflows and improved efficiency by **60–70% and** architected a **high-scale digital marketplace** built from the ground up with **high availability**, a seamless user experience, and an **80% performance boost**. Manage and mentor a team of **12+ engineers**, drive **engineering best practices**, and continuously enhance delivery processes to achieve faster, higher-quality outcomes.

JUNE 2023 – MAY 2024

FULL STACK ENGINEER | TRUTH, UAE | FULL TIME

Responsible for building a complete **nutrition-based meal plan platform** covering the full operational lifecycle, including **micro-recipe creation, kitchen workflow management, and delivery coordination**. Designed, developed, and integrated **secure APIs, payment gateway modules**, and scalable **backend services** to support a seamless end-

to-end process. Delivered the solution as a **SaaS platform**, overseeing **deployment, configuration, and customer onboarding** for multiple clients. The system significantly improved operational efficiency across kitchen and delivery operations, increasing overall workflow performance from **approximately 30 percent to 50 percent**.

JUNE 2022 – MAY 2023

SENIOR LEAD APPLICATION DEVELOPER | WISEVISION, REMOTE – ROMANIA | FULL TIME

Worked as a project-based **Senior Application Developer**, leading and managing development teams while overseeing customized projects end to end. Handled everything from requirement gathering and solution design to execution, delivery, and deployment. Delivered multiple **end-to-end web solutions** across diverse domains, including a **cruise management system, customized ERP platforms**, and an **AI-driven automated SEO solution**. Collaborated closely with clients to define functional needs, designed **complex web architectures**, and ensured high-quality user experiences using **Vue, React, and Laravel**. Consistently guided team collaboration, maintained project timelines, and delivered **scalable, high-performing applications**. Recognized for solid problem solving, team mentorship, and consistently delivering high-performing, user-focused applications in fast-paced environments.

FEB 2020– NOV 2021

APPLICATION ARCHITECT | SMART DOCTORS, REMOTE – US | PART TIME

Designed and oversaw the complete **telehealth application architecture**, covering the **UI, database, APIs, and communication protocols** to ensure full alignment with project requirements and **HIPAA compliance**. Led the end-to-end **application development**, ensuring delivery matched both functional and non-functional standards while maintaining high performance, security, and reliability. Managed and guided a **cross-functional engineering team**, driving implementation according to the approved architecture and best practices. Collaborated closely with the **operations team** to oversee deployment, monitoring, and ongoing maintenance of the telehealth platform.

JUNE 2021– MAY 2022

SENIOR WEB APPLICATION DEVELOPER | ACE MONEY TRANSFER - UK | FULL TIME

Led the development of **high-performance web applications** using **Laravel, React, Vue**, and modern JavaScript. Implemented major **payment gateway integrations** including **Checkout, Ingenico, and Trustly**, along with **banking APIs** and a comprehensive **e-wallet system with VISA integration**. Built and optimized **internal and customer-facing APIs**, increasing efficiency from **40 percent to 70 percent** through **Redis caching** and architectural enhancements. Delivered **zero-downtime deployments**, engineered a **real-time leads dashboard**, and partnered closely with **cross-functional teams** to drive product improvements. Provided **code reviews**, mentored **junior developers**, and elevated overall **engineering standards** across the team.

JUNE 2018 – MAY 2021

WEB APPLICATION DEVELOPER | ACE MONEY TRANSFER - UK | FULL TIME

Developed **reliable, well-structured PHP applications** without frameworks, building a strong foundation in **core development practices** while working directly on **business logic and admin panel features**. Improved existing **codebases**, resolved **bugs**, enhanced **performance**, and implemented **data handling and automation workflows**. Supported day-to-day **platform enhancements** and contributed to smoother **operational processes** across the system.

Education

2012 — 2016

Bachelor of Science in Information Technology
University of Gujrat

2010 — 2012

Intermediate in Computer Science
Punjab College Gujrat
